## THE CRAFTSMAN

CAARIGAR The Craftsman was established in the year 1995 and has been since serving the world with finely crafted decor and furniture.

Caarigar is an offshoot of Haji Kallan and Brother (Established 1900). Manufacturers and exporters of Brass Handicraft. With a Lineage and History in Brass Handicraft, Caarigar also diversified into manufacture of Architectural Hardware and Lighting along with their sister concerns Dynamic Designs Inc. and Brass Tree. We have been providing our clients around the world with High-End and World Class Decor, Furniture, Architectural Hardware and exquisite Handcrafted Lighting.

Our prime objective is to be at par with benchmark companies around the world with consistent innovation and new product development while maintaining the quality of our products at all times.

With a rich history in the famous fine art in brass from Moradabad, we at CAARIGAR try to maintain our traditional art while keeping current with modern design and symmetry as be the case. The culmination of the two remains our challenge and strife.
